DETAILED ACTION

1. This is in response to the Applicant's amendments and arguments filed on November 12, 2004 in which claims 2, 6, 8, 12, 14, and 18 have been amended, and claims 1, 7, and 13 have been canceled. Claims 2-6, 8-12, and 14-21 are currently pending.

Allowable Subject Matter

2. After a further search and thorough examination of the present application and in view of the applicant's arguments and amendments, claims 4, 2, 3, 5, 6, 19, 10, 8, 9, 11, 12, 20, 16, 14, 15, 17, 18, and 21, renumbered as 1-18 respectively, are found to be in condition of allowance.

3. The following is an examiner's statement of reasons for allowance: the cited prior arts teach supplying one or more batteries per path. The prior art further teaches programming the MCU to control when to turn on and off switches according to the amount of energy discharge indicated by the voltage detector.

On the other hand, the Applicant teaches, *inter alia*, a second comparing circuit comparing said second standard voltage with the voltage detected by said first voltage detecting circuit, to detect whether an excess current flows through said one or more secondary batteries, wherein said first cutoff switch is controlled based on outputs of said first comparing circuit and said second comparing circuit. These limitations, in conjunction with all limitations of the independent claims, have not been disclosed, taught, or made obvious over the prior art of record.

The Applicant teaches, inter alia, a fourth comparing circuit comparing said fourth standard voltage with the voltage detected by said second voltage detecting circuit, to detect whether an excess current flows through said one or more secondary batteries, wherein said first cutoff switch is controlled based on outputs of said third comparing circuit and said fourth comparing circuit. These limitations, in conjunction with all limitations of the independent claims, have not been disclosed, taught, or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
